Bhopal, Madhya Pradesh

PROFESSIONAL SUMMARY

B.Tech student specializing in Artificial Intelligence & Data Science with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, and Full-Stack Development. Experienced in building scalable web applications using the MERN stack, developing RESTful APIs, implementing secure JWT-based authentication, and integrating third-party services. Seeking opportunities to apply technical knowledge, contribute to impactful projects, and further develop professional expertise in a challenging and growth-oriented environment.

EDUCATION

Lakshmi Narain College of Technology

Bhopal, MP | Sept 2023 – June 2027

B.Tech in Artificial Intelligence & Data Science | **CGPA: 7.6**

PROJECTS

StockX – Real-Time Stock Trading Platform

[GitHub ↗](#) [Live ↗](#)

- Integrated live stock price APIs and built interactive candlestick/OHLC charts using Recharts and Lightweight Charts, enabling real-time market data visualization.
- Implemented WebSocket (Socket.IO) for live price streaming, reducing latency by eliminating polling and ensuring instant UI updates on price changes.
- Architected dynamic watchlist and portfolio management with persistent MongoDB state, optimized React component architecture, and Axios interceptors for secure API communication.

KisanSaathi – Agriculture Support Portal

[GitHub ↗](#) [Live ↗](#)

- Built a dual-role full-stack MERN portal (Farmer & Admin) empowering 2 user types with government scheme discovery, application tracking, mandi market prices, and grievance management.
- Developed an Admin dashboard with CRUD operations for schemes, market price management, complaint resolution, and user account toggling — all backed by MongoDB.
- Created interactive data visualizations using Recharts to display crop price trends and application analytics; used react-hot-toast for real-time user feedback on all async operations.

TECHNICAL SKILLS

Languages: JavaScript, Java

Frontend: HTML, CSS, Tailwind CSS, React.js

Backend: Node.js, Express.js, REST API, Socket.IO (WebSockets), JWT Authentication

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, npm, VS Code

Concepts: Data Structures & Algorithms, Object Oriented Programming, Operating Systems, Computer Network, DBMS

CERTIFICATES & ACHIEVEMENTS

- Certified in data structure & backend with java by Cousera Board infinity.
- Certified in advanced software engineering job simulation by forage.
- Team lead in Capgemini Exceller AgentifAi Buildathon and participated in SIH(2025), leading team coordination, project development, and solution presentation while addressing real-world problems.
- Attended Industrial visits at CRISP and SSR Global Skills Park to gain practical exposure of industrial technologies.
- Participated in LNCT Engineering Olympics, representing the institute in Cricket and Badminton.
